

# Pratik Jadhav

Data Analyst | Full-Stack Developer | Automation

Pune, Maharashtra +91 9420434728 pratikjadhav.job@gmail.com

## SUMMARY

Data Analyst & Founding Full-Stack Developer with expertise in SQL, Power BI, automation, Python, and full-stack web development. Experienced in freelancing (15+ projects), teaching (150+ students), inside sales (10x revenue generation), and building a complete production website from scratch using agentic AI. Strong problem-solving skills with ability to translate raw data into actionable insights and technical requirements into working products.

## SKILLS

**Data & Databases:** SQL, MySQL, PostgreSQL, Power BI, Power Query, DAX, Excel (Advanced), Google Sheets

**Automation & ETL:** Python (Pandas, NumPy, Matplotlib), API Integration, Data Pipelines, ETL

**Full-Stack & Web:** Frontend + Backend Development, Web Deployment, Domain Management, SEO

**Testing:** Manual Testing, Automated Testing (Unit, Integration, E2E)

**AI-Assisted Development:** Prompt Engineering, Multi-Agent Workflows (Sonnet 4.6, Gemini 3.1 Pro, Julie, Spline)

**Cloud & Tools:** GCP (Vertex AI), Docker, Git, GitHub, JIRA

**Other:** Machine Learning Basics, EDA, Inside Sales, Revenue Strategy, Communication, Teaching

## EXPERIENCE

### Founding Full-Stack Developer

Apr 2026 – Present

#### Tailoring Turba – Clothing Manufacturing Startup, Pune

- Single-handedly built entire website using agentic AI (Sonnet 4.6, Gemini 3.1 Pro, Julie, Spline) – completed in 2 months (Apr–May 2026)
- Owned architecture, logic design, frontend, backend, database integration, and deployment to production
- Purchased domain, managed hosting, made site live and fully operational
- Implemented SEO – improved search visibility, driving organic traffic
- Performed manual and automated testing (unit, integration, end-to-end)
- Served as founding technical member – contributed to product strategy and technical roadmap

### Technical Business Development Associate

Jan 2026 – Mar 2026

#### BE10x (House of Edtech), Pune

- Handled inside sales and generated 10x monthly revenue for the company
- Translated client requirements into technical specifications for internal teams

- ◆ Built automated lead tracking dashboards using Excel & Power BI, improving follow-up efficiency by 30%
- ◆ Used SQL to extract customer insights from CRM data for data-driven sales targeting
- ◆ Collaborated with product team to document API requirements

## Lecturer - Python & Data Visualization

June 2025 – Sept 2025

Trinity Polytechnic, Pune

- ◆ Taught Python, SQL, Data Visualization to 150+ students per year
- ◆ Conducted hands-on workshops and real-world data exercises
- ◆ Guided 25+ student projects using Python & Power BI
- ◆ Improved curriculum with practical problem-solving modules

## Freelance Developer / Data Analyst

Apr 2024 – May 2025

Self-employed / Academic & Client Projects

- ◆ Delivered 15+ academic and client projects including automation tools, dashboards, research systems
- ◆ Built M.Tech projects worth ₹30k per project in Machine Learning and Data Science domains
- ◆ Created full project documentation, deployment pipelines, and academic research integrations
- ◆ Built 10+ B.Tech and Diploma projects using SQL, Python, Excel & Power BI

## Backend Operations Intern

Oct 2023 – Mar 2024

Tailoring Turba, Pune

- ◆ Automated Excel workflows saving 6+ hours/week
- ◆ Improved backend operations and data templates
- ◆ Managed order processing, personalization data, and workflow tracking

## PROJECTS

---

### RAG-Based Resume Analyzer

- ◆ AI-powered resume evaluator using Gemini API – ATS scoring, JD matching, skill gap detection
- ◆ Built interactive Streamlit interface

### Face Recognition Attendance System

- ◆ Python-based face recognition tool for 100+ students
- ◆ Reduced manual attendance time by 85%
- ◆ Automated timestamping and attendance emailing

### E-Commerce Analytics Dashboard (Power BI)

- ◆ Dashboard showing revenue, customer insights & product performance
- ◆ Transformed and modeled Excel data using DAX & Power Query
- ◆ Reduced reporting time by 40% through automation

## EDUCATION

---

**B.E. Computer Engineering** – Sinhgad Academy of Engineering, Pune (2020–2024)

**HSC – Science** – Navbharat Junior College, Mul (2019–2020)

## CERTIFICATIONS

---

- ♦ Machine Learning & NLP Bootcamp – KISHNAIK
- ♦ Advanced Software Engineering Simulation – Forage
- ♦ SQL Bootcamp – TechTFQ
- ♦ Complete Web Development Bootcamp – UDEMY
